Verizon Wireless Terms and Conditions

Verizon Wireless Calling Plan Optional Services. Additional fees may be required as per the individual calling plans

Calling Plans and Associated Charges: Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access will not be refunded after activation of the Wireless Service. Activation fees are waived for all Government Subscribers. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the Subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on Subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when Subscriber first presses SEND or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after Subscriber presses END or the call otherwise disconnects. Calls made on the Verizon Wireless network, are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free, however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Subscribers must periodically dial *228 to update roaming information. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

The ability to make international calls is not guaranteed and may be restricted without notice. Rates apply only on calls to Value Plan countries made from calling plan home airtime rate and coverage areas. If a calling plan includes calls to any Value Plan country, those calls will be billed per the terms of the calling plan except when roaming on another carrier's network, in which case that carrier's rates will apply. Current international calling rates may be found at www.verizonwireless.com.

International Roaming (Global Phone): Availability of calling features and TXT messaging varies by country and network. Existing Subscribers who purchase a Global Phone may have to set up a new voice mailbox and, if so, will lose access to previously stored messages upon activation of Global Phone. Voice mail messages will be time-stamped Eastern Time. Calls to voice mail will appear on the bill as calls to the Subscriber's MTN. Actual availability of service in foreign countries may vary and is subject to change. Taxes and other regulatory surcharges may apply and may vary by country. Where TXT messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. TXT messaging rates are subject to change. TXT messages cannot exceed 140 characters and may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be placed within BroadbandAccess service area. PDA/Smartphone and BlackBerry users that move from a VZEmail plan or feature, or a Voice and Data Choice Bundle to another calling plan will not be able to use their PDA/Smartphone or BlackBerry on the new calling plan and will need to purchase or provide compatible voice Equipment to switch to the new calling plan. For current NationalAccess and BroadbandAccess service areas, please visit www.verizonwireless.com. All data sessions automatically terminate after 24 hours of activity and on unlimited calling plans after 2 hours if inactivity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to Equipment, or may seem active when it is actually cached and not transferring data. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the Subscriber pressing or clicking SEND or CONNECT button. Voice calls cannot be received when an e-mail or other data transmission is

occurring. Voice calls are possible when NationalAccess data session is inactive; however, charges apply simultaneously to the data session and the voice call in accordance with the applicable calling plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection when accessing the service. Customer is responsible for all charges, including all data sent and received and "overhead" whether or not Subscriber or recipients actually receive the data. "Overhead" is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters and retransmissions of user-data messages that are received in error. VZEmail calling plans and optional features not available with PC cards or wireless modems, including wireless Equipment tethered to a PC. In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

Verizon Wireless reserves the right to limit data throughput speeds in any given month that 5 GB of usage is exceeded on a per line basis. Anyone using more than 5 GB per line in a given month is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We also reserve the right to terminate service upon notification to the customer.

If Verizon Wireless in its sole discretion determines that a PDA or BlackBerry related inquiry from a Subscriber is related to the Wireless Sync Enterprise Server, GoodLink or BES software and not one concerning Equipment or desktop software, it may transfer the service request to appropriate representatives of the software manufacturer. When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, every time you receive an email or other update you may

be charged for an incoming TXT Message. To avoid TXT Messaging charges, you can set up timed synchronization or manually initiate synchronization.

Mobile Broadband Machine-to-Machine plan sharing options, Account Share: Customer may activate up to 15 share groups per account. Sharing is available only among M2M Lines on the Mobile Broadband M2M Account Share Plans on the same billing account, in the same usage group (Low Usage and High Usage plans cannot share with each other). Unused KBs will be distributed to M2M Lines with an overage on an as needed basis to M2M Lines on the same billing account that have exceeded their MB allowance during the same monthly billing period. At the end of each bill cycle any unused KBs allowances will be applied to the overages of the other M2M Lines on the same account beginning with the line with the lowest overage need until depleted. Customers subscribing to Mobile Broadband M2M Account Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Profile Share Plans. **Multi-Account Share:** Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.). Sharing on these calling plans is for voice home airtime minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused

Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – April 1, 2013 is 3.63% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 15.5%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.16 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.
